SUBJECT INDEX

Note: Abstract Index follows Author Index

A

Abducens nerve
Isolated abducens nerve paresis from intrapontine, fascicular abducens nerve injury (letter), 459

Trigeminal schwannoma as a cause of chronic, isolated sixth nerve palsy, 726

***Acanthamoeba* sp.**
Acanthamoeba keratitis occurring with disposable contact lens wear (letter), 453

Adherence of *Acanthamoeba castellanii* cysts and trophozoites to unworn soft contact lenses, 658

Contact lens disinfection by ultraviolet light, 665

Examination of hydrophilic contact lenses with light microscopy to aid in the diagnosis of *Acanthamoeba* keratitis (letter), 329

Microbial analysis of contact lens care systems contaminated with *Acanthamoeba*, 53

Acquired immunodeficiency syndrome
Isolated homonymous hemianopsia in the acquired immunodeficiency syndrome (letter), 198

Acute retinal necrosis
Aqueous chamber tap and serology in acute retinal necrosis (letter), 327

Acyclovir
Exogenous lactase in the treatment of oral acyclovir intolerance (letter), 733

Adolescents
Idiopathic premacular gliosis in children and adolescents, 578

Afferent pupillary defect
Brightness sense and the relative afferent pupillary defect (letter), 462

Alagille's syndrome
Keratoconus in Alagille's syndrome (letter), 332

Amblyopia
Pupillary dilatation with monocular occlusion as a sign of nonorganic oculomotor dysfunction (letter), 461

Anesthesia
Unilateral corneal anesthesia (letter), 331

Angiography
High resolution indocyanine green angiography with a scanning laser ophthalmoscope (letter), 458

Angioid streaks
Angioid streaks in homozygous β thalassemia, 356

Angioma
Familial cavernous angiomas manifesting with an acute chiasmal syndrome, 245; correction, 619

Peripheral retinal angiomalike lesion and macular pucker, 563

Anhidrosis
The friction sweat test as a new method for detecting facial anhidrosis in patients with Horner's syndrome, 443

Anterior chamber
Tube migration after glaucoma shunt procedure (letter), 334

Anticoagulant
Ocular surgery on patients receiving long-term warfarin therapy, 142

Antigen
An association between acute retinal necrosis syndrome and HLA-DQw7 and phenotype Bw62,DR4, 370

Immunohistologic study of proliferative vitreoretinopathy, 387

Apraclonidine hydrochloride
A limited comparison of apraclonidine's dose response in subjects with normal or increased intraocular pressure, 230

Aqueous humor
Aqueous chamber tap and serology in acute retinal necrosis (letter), 327

Artificial tears
Artificial tears or lens cleaner (letter), 610

Astigmatism
Corneal compression sutures for the reduction of astigmatism after penetrating keratoplasty, 36

Corneal compression sutures for the reduction of astigmatism after penetrating keratoplasty (correspondence), 614

Automated perimetry
Interpreting automated perimetry (editorial), 189

B

***Bacillus* sp.**
Microbial analysis of contact lens care systems contaminated with *Acanthamoeba*, 53

Successful treatment of *Bacillus alvei* endophthalmitis (letter), 454

Bacteria
The comparative in vitro activity of ofloxacin and selected ophthalmic antimicrobial agents against ocular bacterial isolates, 380

Diphtheroids as ocular pathogens, 251

Biopsy
The agar-albumin sandwich technique for processing retinal biopsy specimens, 567

Blepharoptosis
An alternative needle for frontalis suspension (letter), 208

Blepharospasm
Ocular adverse reactions associated with Adriamycin (doxorubicin), 709

Blindness
Organizing to prevent third world blindness (correspondence), 466

Books and Computer Software
Acute Hemorrhagic Conjunctivitis. Etiology, Epidemiology, and Clinical Manifestations, by Uchida, Y., Ishii, K., Miyamura, K., and Yamakazi, S. (eds.), 616

Primary Angle Closure Glaucoma, by Lowe, R. F., and Ming, A. L. S., 617

Retina, by Ryan, S. J. (ed.), 471

Retinal Detachment Surgery, ed. 2, by Chignell, A. H., 97

Scientific foundations and surgical treatment of craniosynostosis, by Persing, J. A., Edgerton, M. T., and Jane, J. A. (eds.), 616

Stallard's Eye Surgery, ed. 7, by Roper-Hall, M. J., 474

Werner-Grën International Symposium Series. Volume 49. Strabismus and Amblyopia, by Lennerstrand, G., Von Noorden, G. K., and Campos, E. C. (eds.), 618

When Doctors Get Sick, by Mandell, H., and Spiro, H. (eds.), 340

Brachytherapy
Analysis of radiation failure after uveal melanoma brachytherapy, 712

C

***Candida* sp.**
Contact lens disinfection by ultraviolet light, 665

Cannula
A combined iris retractor and irrigation cannula for congenital-cataract surgery (letter), 741

The surgical management of giant retinal tears with the cannulated extrusion needle, 548

Capsulotomy
Retinal detachment after neodymium:YAG laser posterior capsulotomy (correspondence), 464

Carbachol
Carbachol dose response (letter), 456

Carcinoma
Intraepithelial neoplasia of the conjunctiva with mucoepidermoid differentiation (letter), 600

Cataract
A combined iris retractor and irrigation cannula for congenital-cataract surgery (letter), 741

Complications after surgery for congenital and infantile cataracts, 136

Extracapsular cataract extraction in Fuchs' heterochromic iridocyclitis, 310

Familial congenital cornea guttata with anterior polar cataracts, 123

Refractive complications of cataract surgery after radial keratotomy, 676

Central serous chorioretinopathy
Optic nerve head drusen and peripapillary central serous chorioretinopathy (letter), 202

Chiasm
Familial cavernous angiomas manifesting with an acute chiasmal syndrome, 245; correction, 619

Children
Idiopathic premacular gliosis in children and adolescents, 578

Normal exophthalmometric values in children, 582

Optic glioma with intraocular tumor and seeding in a child with neurofibromatosis, 717

Choroid
Choroidal neovascular membrane and other chorioretinal complications of acquired syphilis, 554

High resolution indocyanine green angiography with a scanning laser ophthalmoscope (letter), 458

Presumed choroidal tuberculosis in a human immunodeficiency virus infected host (letter), 605

A rationale for comparing radiation to enucleation in the management of choroidal melanoma (editorial), 448

Choroiditis
Multifocal choroiditis uveitis occurring after herpes zoster ophthalmicus (letter), 733

Ciliary body
Retinal detachment with breaks in the pars plicata of the ciliary body, 349; correction, 752

Cocaine
Corneal epithelial defects after smoking crack cocaine (letter), 732

Collagen shield
The effect of collagen shields on epithelial wound healing in rabbits, 524

Color vision
Autosomal dominantly inherited macular dystrophy with preferential short-wavelength sensitive cone involvement, 265

An electroretinographic and molecular genetic study of X-linked cone degeneration, 540

Computerized image analysis
The future of computerized image analysis in the management of glaucoma (editorial), 319

Reliability of optic nerve head topographic measurements with computerized image analysis, 414

Cone
Autosomal dominantly inherited macular dystrophy with preferential short-wavelength sensitive cone involvement, 265

An electroretinographic and molecular genetic study of X-linked cone degeneration, 540

Conjunctiva
Conjunctival deposition of eosinophil granule major basic protein in vernal keratoconjunctivitis and contact lens-associated giant papillary conjunctivitis, 57

Intraepithelial neoplasia of the conjunctiva with mucoepidermoid differentiation (letter), 600

Malignant melanomas of the conjunctiva, nasal cavity, and paranasal sinuses, 440

The Nd:YAG laser removal of cyanoacrylate used to repair conjunctival wound leaks (letter), 86

Pigmentation of the eyelid margin accompanying conjunctival melanoma, 435

Tonic pupillary reaction after epidemic nephropathy and transient myopia (letter), 201

Conjunctivitis
Conjunctival deposition of eosinophil granule major basic protein in vernal keratoconjunctivitis and contact lens-associated giant papillary conjunctivitis, 57

Immunohistologic findings and results of treatment with cyclosporine in ligneous conjunctivitis (correspondence), 210

Ocular adverse reactions associated with Adriamycin (doxorubicin), 709

Contact lens
Acanthamoeba keratitis occurring with disposable contact lens wear (letter), 453

Adherence of *Acanthamoeba castellanii* cysts and trophozoites to unworn soft contact lenses, 658

Conjunctival deposition of eosinophil granule major basic protein in vernal keratoconjunctivitis and contact lens-associated giant papillary conjunctivitis, 57

Contact lens disinfection by ultraviolet light, 665

A contact lens for transscleral Nd:YAG cyclophotocoagulation (letter), 457

Corneal ulcers associated with disposable hydrogel contact lenses, 113

Examination of hydrophilic contact lenses with light microscopy to aid in the diagnosis of *Acanthamoeba* keratitis (letter), 329

Microbial analysis of contact lens care systems contaminated with *Acanthamoeba*, 53

Saline for contact lens ophthalmoscopy and photocoagulation (letter), 742

Tono-Pen estimation of intraocular pressure through bandage contact lenses, 422

Ulcerative keratitis associated with contact lens wear, 64

Cornea

Corneal compression sutures for the reduction of astigmatism after penetrating keratoplasty, 36

Corneal compression sutures for the reduction of astigmatism after penetrating keratoplasty (correspondence), 614

Corneal endothelial changes in pseudoexfoliation syndrome, 49

Corneal epithelial defects after smoking crack cocaine (letter), 732

Corneal topography of early keratoconus, 107

Corneal topography of early keratoconus (correspondence), 746

Corneal topography of early keratoconus (correspondence), 746

Corneal ulcers associated with disposable hydrogel contact lenses, 113

The effect of collagen shields on epithelial wound healing in rabbits, 524

The effect of increased intraocular pressure on visual acuity and corneal curvature after radial keratotomy, 126

Keratoconus and lattice and granular corneal dystrophies in the same eye (letter), 608

Neodymium:YAG laser lysis of iridocorneal adhesions in mesodermal dysgenesis (letter), 598

Sporadic diffuse corneal endotheliitis, 509

Tissue plasminogen activator and the corneal endothelium (letter), 91

Unilateral corneal anesthesia (letter), 331

Cornea guttata

Familial congenital cornea guttata with anterior polar cataracts, 123

Mandibulofacial dysostosis and cornea guttata (letter), 204

Corrections

Familial cavernous angiomas manifesting with an acute chiasmal syndrome, 245; correction, 619

Retinal detachment with breaks in the pars plicata of the ciliary body, 349; correction, 752

Corticosteroid

Treatment of scleritis with combined oral prednisone and indomethacin therapy (correspondence), 95

Cryotherapy

The role of cryotherapy in the management of retinoblastoma, 260

Cyclosporine

Immunohistologic findings and results of treatment with cyclosporine in ligneous conjunctivitis (correspondence), 210

The use of cyclosporine in high-risk keratoplasty (correspondence), 467

Cytomegalovirus

Severe visual loss related to isolated peripapillary retinal and optic nerve head cytomegalovirus infection, 691

D

Dacryocystorhinostomy

The effect of silicone nasolacrimal intubation on epiphora after helium ion irradiation of uveal melanomas, 431

Relaxed skin tension line incision for dacryocystorhinostomy (letter), 742

Diabetic retinopathy

Posterior chamber intraocular lens insertion during pars plana lensectomy and vitrectomy for complications of proliferative diabetic retinopathy, 1

Diphtheroid

Diphtheroids as ocular pathogens, 251

Dry-eye syndrome

The effect of wearing spectacles on the humidity of the eye (letter), 92

Ophthalmic solutions, the ocular surface, and a unique therapeutic artificial tear formulation (correspondence), 94

Dysostosis

Mandibulofacial dysostosis and cornea guttata (letter), 204

E

Ectropion

Floppy eyelid syndrome associated with marked lower eyelid ectropion (letter), 610

Edema

Bilateral acute retinal necrosis syndrome (letter), 736

Bilateral subretinal neovascularization after focal argon laser photocoagulation for diabetic macular edema (letter), 88

Editorials

The control of onchocerciasis (WINTER, F. C.), 84

The future of computerized image analysis in the management of glaucoma (SHIELDS, M. B.), 319

Glaucoma lexicon (VAN BUSKIRK, E. M.), 730

Interpreting automated perimetry (ANDERSON, D. R.), 189

A rationale for comparing radiation to enucleation in the management of choroidal melanoma (ROBERTSON, D. M.), 448

Electroretinography
Effect of squinting on the pattern electroretinogram (letter), 744

Emmetropia
The clinical utility of visual-evoked potential acuity testing, 572

Endophthalmitis
Endogenous *Mycobacterium chelonae* endophthalmitis (letter), 338

Endogenous orbital cellulitis and endogenous endophthalmitis in subacute bacterial endocarditis (letter), 196

Successful treatment of *Bacillus alvei* endophthalmitis (letter), 454

Endotheliitis
Sporadic diffuse corneal endotheliitis, 509

Endothelium
Corneal endothelial changes in pseudoexfoliation syndrome, 49

Tissue plasminogen activator and the corneal endothelium (letter), 91

Enophthalmos
Custom orbital implant in the repair of late posttraumatic enophthalmos, 153

Entoptic phenomena
Entopic phenomena in pregeniculate and postgeniculate hemianopsia with splitting of macula by perimetry, 585

Enucleation
Decreasing frequency of enucleation in patients with retinoblastoma, 185

A rationale for comparing radiation to enucleation in the management of choroidal melanoma (editorial), 448

Surgical enucleation in community hospitals (letter), 452

Eosinophilia
Angiolymphoid hyperplasia with eosinophilia of the orbit associated with obstructive airway disease, 167

Conjunctival deposition of eosinophil granule major basic protein in vernal keratoconjunctivitis and contact lens-associated giant papillary conjunctivitis, 57

Epiphora
The effect of silicone nasolacrimal intubation on epiphora after helium ion irradiation of uveal melanomas, 431

Epithelium
Corneal epithelial defects after smoking crack cocaine (letter), 732

The effect of collagen shields on epithelial wound healing in rabbits, 524

Eyelid
Floppy eyelid syndrome associated with marked lower eyelid ectropion (letter), 610

Pigmentation of the eyelid margin accompanying conjunctival melanoma, 435

Relaxed skin tension line incision for dacryocystorhinostomy (letter), 742

Tonic pupillary reaction after epidemic nephropathy and transient myopia (letter), 201

F

Fetal hydrops
Ocular examination schedule for infants with fetal hydrops (letter), 459

Filtering surgery
Fluorouracil filtering surgery study one-year follow-up, 625

A modified scleral punch for filtration surgery (letter), 740

Stability of recombinant tissue plasminogen activator (letter), 90

Fistula
Reconstruction of nasal fistulas of the medial canthus, 68

Fluorescein angiography
Intravenous fluorescein interference with clinical laboratory tests, 375

Fluorouracil
Fluorouracil filtering surgery study one-year follow-up, 625

Flurbiprofen sodium
Flurbiprofen sodium to prevent intraoperative miosis during vitreoretinal surgery, 288

Frontalis muscle
An alternative needle for frontalis suspension (letter), 208

Fuchs' heterochromic iridocyclitis
Extracapsular cataract extraction in Fuchs' heterochromic iridocyclitis, 310

Fundus
Hereditary macular dystrophy without visible fundus abnormality, 292

Indirect viewing of the periphery of the ocular fundus through a plane mirror (letter), 603

G

Genetics
An association between acute retinal necrosis syndrome and HLA-DQw7 and phenotype Bw62,DR4, 370

Asymmetric pigment dispersion syndrome in a patient with unilateral Horner's syndrome (letter), 737

An autosomal dominant form of low-tension glaucoma, 238

Autosomal dominantly inherited macular dystrophy with preferential short-wavelength sensitive cone involvement, 265

Central pigmentary sheen dystrophy, 255

Complications after surgery for congenital and infantile cataracts, 136

An electroretinographic and molecular genetic study of X-linked cone degeneration, 540

Familial cavernous angiomas manifesting with an acute chiasmal syndrome, 245; correction, 619

Familial congenital cornea guttata with anterior polar cataracts, 123

Hereditary macular dystrophy without visible fundus abnormality, 292

Hereditary pigmented paravenous chorioretinal atrophy, 365

Keratoconus in Alagille's syndrome (letter), 332

Ocular anomalies in abdominal muscle deficiency syndrome (letter), 193

Trial of early diagnosis of Leber's optic neuropathy by means of polymerase chain reaction amplification (letter), 601

Glaucoma

Acute glaucoma following fluid-gas exchange in a phakic patient (letter), 738

Automated perimetry, tonometry, and questionnaire in glaucoma screening, 505

An autosomal dominant form of low-tension glaucoma, 238

Fluorouracil filtering surgery study one-year follow-up, 625

The future of computerized image analysis in the management of glaucoma (editorial), 319

Glaucoma in the Maroteaux-Lamy syndrome, 426

Glaucoma lexicon (editorial), 730

Glaucomalike disks without increased intraocular pressure or visual field loss, 496

Glaucoma: the damage caused by pressure. XLVI Edward Jackson Memorial lecture, 485

Kearns-Sayre syndrome and primary open-angle glaucoma (letter), 335

Malignant glaucoma following argon laser release of scleral flap sutures after trabeculectomy (letter), 597

Measurements of peripapillary nerve fiber layer contour in glaucoma, 404

Neodymium:YAG laser lysis of iridocorneal adhesions in mesodermal dysgenesis (letter), 598

Neural crest origin of human trabecular meshwork and its implications for the pathogenesis of glaucoma (correspondence), 469

A new technique for optic disk analysis in patients with glaucoma (letter), 192

Psoriasis induced by ophthalmic timolol preparations (letter), 455

Risk factors for the development and severity of glaucoma in the pigment dispersion syndrome, 223

Test-retest variability in glaucomatous visual fields, 130

Tube migration after glaucoma shunt procedure (letter), 334

Visual field damage in normal-tension and high-tension glaucoma, 636

Vitreous hemorrhage associated with pilocarpine (letter), 333

YAG laser treatment in a series of failed trabeculectomies, 395

Glioma

Optic disk glioma in neurofibromatosis type 2 (letter), 602

Optic glioma with intraocular tumor and seeding in a child with neurofibromatosis, 717

Gliosis

Idiopathic premacular gliosis in children and adolescents, 578

Graves' disease

Medial and lateral wall decompression for thyroid ophthalmopathy, 160

H

Hansen's disease

Low intraocular pressure and postural changes in intraocular pressure in patients with Hansen's disease, 80

Hemianopsia

Entopic phenomena in pregeniculate and postgeniculate hemianopsia with splitting of macula by perimetry, 585

Isolated homonymous hemianopsia in the acquired immunodeficiency syndrome (letter), 198

Hemoglobin

Peripheral retinal neovascularization associated with hemoglobin C β° thalassemia (letter), 328

Hemorrhage

Massive suprachoroidal hemorrhage in penetrating keratoplasty, 670

Herpes simplex

Exogenous lactase in the treatment of oral acyclovir intolerance (letter), 733

Herpes zoster ophthalmicus

Exogenous lactase in the treatment of oral acyclovir intolerance (letter), 733

Multifocal choroiditis uveitis occurring after herpes zoster ophthalmicus (letter), 733

History of ophthalmology

125th Anniversary of the New York Ophthalmological Society, 97

Horner's syndrome

Asymmetric pigment dispersion syndrome in a patient with unilateral Horner's syndrome (letter), 737

The friction sweat test as a new method for detecting facial anhidrosis in patients with Horner's syndrome, 443

Human immunodeficiency virus
Isolation of HIV-1 from vitreous humor (letter), 197
Presumed choroidal tuberculosis in a human immunodeficiency virus infected host (letter), 605

Hyperplasia
Angiolymphoid hyperplasia with eosinophilia of the orbit associated with obstructive airway disease, 167

Hypotony
Hypotony following instillation of apraclonidine for increased intraocular pressure after trabeculoplasty (letter), 191

I

Immunology
Anterior uveitis in IgA nephropathy (letter), 604

Indomethacin
Indomethacin for the treatment of idiopathic orbital myositis (letter), 336

Infants
A combined iris retractor and irrigation cannula for congenital-cataract surgery (letter), 741
Complications after surgery for congenital and infantile cataracts, 136
Ocular anomalies in abdominal muscle deficiency syndrome (letter), 193
Ocular examination schedule for infants with fetal hydrops (letter), 459
Orbital hemorrhage in a newborn (letter), 206
The pupils of term and preterm infants, 75

Intraocular lens
Anatomic study of transsclerally sutured intraocular lens implantation, 300
The correction of myopia by lens implantation into phakic eyes (correspondence), 465
Impaired ophthalmoscopy and condensation on intraocular lens (letter), 88
Pars plana vitrectomy in the management of dislocated posterior chamber lenses, 529
Penetrating keratoplasty and intraocular lens exchange for pseudophakic bullous keratopathy associated with a closed-loop anterior chamber intraocular lens, 43
Photographic simulation of image quality through bifocal intraocular lenses (letter), 324
Posterior chamber intraocular lens insertion during pars plana lensectomy and vitrectomy for complications of proliferative diabetic retinopathy, 1
Technique for endocapsular insertion of an intraocular lens (letter), 87

Intraocular pressure
Carbachol dose response (letter), 456
The effect of increased intraocular pressure on visual acuity and corneal curvature after radial keratotomy, 126
Glaucomalike disks without increased intraocular pressure or visual field loss, 496
Glaucoma: the damage caused by pressure. XLVI Edward Jackson Memorial lecture, 485
Hypotony following instillation of apraclonidine for increased intraocular pressure after trabeculoplasty (letter), 191
A limited comparison of apraclonidine's dose response in subjects with normal or increased intraocular pressure, 230
Low intraocular pressure and postural changes in intraocular pressure in patients with Hansen's disease, 80
Tono-Pen estimation of intraocular pressure through bandage contact lenses, 422

Iridocyclitis
Ocular Lyme borreliosis, 651

Iris
A combined iris retractor and irrigation cannula for congenital-cataract surgery (letter), 741
Neodymium:YAG laser lysis of iridocorneal adhesions in mesodermal dysgenesis (letter), 598

J

Jackson, Edward
Glaucoma: the damage caused by pressure. XLVI Edward Jackson Memorial lecture, 485

K

Kearns-Sayre syndrome
Kearns-Sayre syndrome and primary open-angle glaucoma (letter), 335

Keratectomy
The effect of collagen shields on epithelial wound healing in rabbits, 524

Keratitis
Acanthamoeba keratitis occurring with disposable contact lens wear (letter), 453
Examination of hydrophilic contact lenses with light microscopy to aid in the diagnosis of *Acanthamoeba* keratitis (letter), 329
Exogenous lactase in the treatment of oral acyclovir intolerance (letter), 733
Microbial analysis of contact lens care systems contaminated with *Acanthamoeba*, 53
Ocular adverse reactions associated with Adriamycin (doxorubicin), 709
Sclerokeratitis caused by *Mycobacterium marinum* (letter), 607
Ulcerative keratitis associated with contact lens wear, 64

Keratoconjunctivitis
Conjunctival deposition of eosinophil granule major basic protein in vernal keratoconjunctivitis and contact lens-associated giant papillary conjunctivitis, 57
Treatment of adult gonococcal keratoconjunctivitis with oral norfloxacin, 516

Keratoconus
Association of keratoconus and false chordae tendineae in the left ventricle (letter), 93

Corneal topography of early keratoconus, 107

Corneal topography of early keratoconus (correspondence), 746

Corneal topography of early keratoconus (correspondence), 746

Keratoconus and lattice and granular corneal dystrophies in the same eye (letter), 608

Keratoconus in Alagille's syndrome (letter), 332

Keratopathy
Penetrating keratoplasty and intraocular lens exchange for pseudophakic bullous keratopathy associated with a closed-loop anterior chamber intraocular lens, 43

Keratoplasty
Massive suprachoroidal hemorrhage in penetrating keratoplasty, 670

Results of silicone oil removal in advanced proliferative vitreoretinopathy, 15

The use of cyclosporine in high-risk keratoplasty (correspondence), 467

Keratoprosthesis
A periosteal-temporalis fascia pedicle flap for repairing impending ocular perforations and extruding keratoprostheses, 704

L

Lacrimal apparatus
A comparison of two methods of punctal occlusion, 315

The effect of silicone nasolacrimal intubation on epiphora after helium ion irradiation of uveal melanomas, 431

Laser
Bilateral subretinal neovascularization after focal argon laser photocoagulation for diabetic macular edema (letter), 88

Confocal laser tomographic analysis of the retina in eyes with macular hole formation and other focal macular diseases, 277

A contact lens for transscleral Nd:YAG cyclophotocoagulation (letter), 457

High resolution indocyanine green angiography with a scanning laser ophthalmoscope (letter), 458

Malignant glaucoma following argon laser release of scleral flap sutures after trabeculectomy (letter), 597

The Nd:YAG laser removal of cyanoacrylate used to repair conjunctival wound leaks (letter), 86

Neodymium:YAG laser lysis of iridocorneal adhesions in mesodermal dysgenesis (letter), 598

Retinal detachment after neodymium:YAG laser posterior capsulotomy (correspondence), 464

Trabecular repopulation by anterior trabecular meshwork cells after laser trabeculoplasty (correspondence), 209

YAG laser treatment in a series of failed trabeculectomies, 395

Leber's optic neuropathy
Trial of early diagnosis of Leber's optic neuropathy by means of polymerase chain reaction amplification (letter), 601

Lens
Acute glaucoma following fluid-gas exchange in a phakic patient (letter), 738

Lens cleaner
Artificial tears or lens cleaner (letter), 610

Lensectomy
Posterior chamber intraocular lens insertion during pars plana lensectomy and vitrectomy for complications of proliferative diabetic retinopathy, 1

Lyme borreliosis
Vitreous clouding associated with Lyme borreliosis (letter), 453

Ocular Lyme borreliosis, 651

M

Macula
Autosomal dominantly inherited macular dystrophy with preferential short-wavelength sensitive cone involvement, 265

Bilateral subretinal neovascularization after focal argon laser photocoagulation for diabetic macular edema (letter), 88

Central pigmentary sheen dystrophy, 255

Confocal laser tomographic analysis of the retina in eyes with macular hole formation and other focal macular diseases, 277

Entopic phenomena in pregeniculate and postgeniculate hemianopsia with splitting of macula by perimetry, 585

Hereditary macular dystrophy without visible fundus abnormality, 292

Histopathology of tissue removed during vitrectomy for impending idiopathic macular holes, 360

Allopurinol
Allopurinol use and the risk of cataract formation, 100

Amaurosis fugax
Amaurosis fugax and ocular infarction in adolescents and young adults, 476

Amblyopia
Review of children referred from the school vision screening programme in Kettering during 1976-8, 100

Ankylosing spondylitis
Mobility spectacles for ankylosing spondylitis, 620

Antibiotic
Influence of ophthalmic ointments on the penetration of pilocarpine drops, 621

Antigen
DNA of human papillomavirus type 16 in dysplastic and malignant lesions of the conjunctiva and cornea, 345

Astigmatism
Astigmatism shift after extracapsular surgery. Mersilene versus nylon, 621

Atheroclerosis
Atherosclerosis potentiates constrictor responses of cerebral and ocular blood vessels to thromboxane in monkeys, 219

B

Behçet's disease
Fundus changes associated with Behçet's disease, 620

Plasma exchange in the therapy of Behçet's disease, 620

Benzalkonium chloride
The effect of epinephrine and benzalkonium chloride on cultured corneal endothelial and trabecular meshwork cells, 478

Blepharoplasty
Complications of oriental blepharoplasty, 218

The oculocardiac reflex in blepharoplasty surgery, 218

Blepharoptosis
Ptosis following cataract and trabeculectomy surgery, 343

Blepharospasm
Blepharospasm and its treatment, with emphasis on the use of botulinum toxin, 218

Blood-retinal barrier
Immunohistochemic localization of blood-retinal barrier breakdown in human diabetes, 216

Botulinum toxin
Blepharospasm and its treatment, with emphasis on the use of botulinum toxin, 218

Bruch's membrane
Scanning electron microscopic observation of Bruch's membrane with the osmium tetroxide treatment, 100

C

Carotid artery
Atherosclerosis potentiates constrictor responses of cerebral and ocular blood vessels to thromboxane in monkeys, 219

Occipital infarction with hemianopsia from carotid occlusive disease, 219

The ocular ischemic syndrome, 620

Cataract
Advantages and limitations of current soft intraocular lenses, 216

Allopurinol use and the risk of cataract formation, 100

Ptosis following cataract and trabeculectomy surgery, 343

Catecholamine
Catecholamine depletion produces irrepressible saccadic eye movements in normal humans, 476

Cerebral cortex
The colour centre in the cerebral cortex of man, 755

Children
Acute acquired comitant esotropia, 754

Analysis of treatment results in 36 children with retinoblastoma treated by scleral plaque irradiation, 754

Optic gliomas in children with neurofibromatosis type 1, 479

Orbital roof fractures in the pediatric population, 755

Review of children referred from the school vision screening programme in Kettering during 1976-8, 100

Chlamydia sp.
Efficacy of neonatal ocular prophylaxis for the prevention of chlamydial and gonococcal conjunctivitis, 101

Choroid
Bilateral loss of vision in bright light, 346

Fine needle aspiration biopsy of suspected metastatic cancers to the posterior uvea, 102

Ciliary body
The ciliary vasculature and its perturbation with drugs and surgery, 104

Cocaine
Ophthalmic use of cocaine and the urine test for benzoylecgonine, 346

Color vision
The colour centre in the cerebral cortex of man, 755

Molecular genetics of human blue cone monochromacy, 756

Computed tomography
Blindness in eclampsia: CT and MR imaging, 755

Cone
Molecular genetics of human blue cone monochromacy, 756

Conjunctiva
DNA of human papillomavirus type 16 in dysplastic and malignant lesions of the conjunctiva and cornea, 345

Conjunctivitis
Efficacy of neonatal ocular prophylaxis for the prevention of chlamydial and gonococcal conjunctivitis, 101

Water, trachoma and conjunctivitis, 477

Contact lens
Acanthamoeba keratitis associated with contact lenses: six consecutive cases of successful management, 343

Infectious corneal ulcer with overextended wearing of disposable contact lenses, 344

Contrast sensitivity
Practical contrast sensitivity acuity testing, 621

Cornea
DNA of human papillomavirus type 16 in dysplastic and malignant lesions of the conjunctiva and cornea, 345

Infectious corneal ulcer with overextended wearing of disposable contact lenses, 344

Corticosteroid
Influence of ophthalmic ointments on the penetration of pilocarpine drops, 621

D

Dermatitis
A review of 79 cases of eyelid dermatitis, 754

Diabetes
Immunohistochemic localization of blood-retinal barrier breakdown in human diabetes, 216

Diplopia
Acute acquired comitant esotropia, 754

Dry-eye syndrome
Sodium hyaluronate in the treatment of keratoconjunctivitis sicca, 476

Dyslexia
Dyslexia, 101

E

Eclampsia
Blindness in eclampsia: CT and MR imaging, 755

Endothelium
The effect of epinephrine and benzalkonium chloride on cultured corneal endothelial and trabecular meshwork cells, 478

Epicanthal fold
Complications of oriental blepharoplasty, 218

Epinephrine
The effect of epinephrine and benzalkonium chloride on cultured corneal endothelial and trabecular meshwork cells, 478

Ophthalmic epinephrine, phenylephrine, and pilocarpine affect the systemic absorption of ocularly applied timolol, 622

Esotropia
Acute acquired comitant esotropia, 754

Exophthalmos
Orbital roof fractures in the pediatric population, 755

Superior and transantral orbital decompression procedures, 216

Eyelid
Conchal cartilage and composite grafts for correction of lower lid retraction, 219

A review of 79 cases of eyelid dermatitis, 754

Upper eyelid retraction in Graves' ophthalmopathy. A new surgical technique and a study of the abnormal levator muscle, 104

F

Fibronectin
Fibronectin detection in drainage outflow system of human eyes in ageing and progression of open-angle glaucoma, 217

Fibrosis
Correlation of fibrosis and transforming growth factor-β type 2 levels in the eye, 217

Fine needle biopsy
Fine needle aspiration biopsy of suspected metastatic cancers to the posterior uvea, 102

Fundus
Classification of hypertensive fundus changes and their order of appearance, 481

Fundus changes associated with Behçet's disease, 620

G

Ganciclovir
GM-CSF with ganciclovir for the treatment of CMV retinitis in AIDS, 345

Gaze
Downbeating nystagmus and other ocular motor defects caused by lithium toxicity, 218

Gaze distractibility in Wilson's disease, 343

Genetics
A defect in mitochondrial electron-transport activity (NADH-coenzyme Q oxidoreductase) in Leber's hereditary optic neuropathy, 345

Focal congenital anomalies of the retinal pigment epithelium, 478

Frequency of 13q abnormalities among 203 patients with retinoblastoma, 217

Iris pigmentation and pigmented lesions. An ultrastructural study, 103

A mitochondrial DNA mutation as a cause of Leber's hereditary optic neuropathy, 345

Molecular genetics of human blue cone monochromacy, 756

Muscle-eye-brain disease (MEB), 753

Optic atrophy, hearing loss, and peripheral neuropathy, 753

Parental origin of mutations of the retinoblastoma gene, 344

Preferential germline mutation of the paternal allele in retinoblastoma, 480

Preliminary exclusion of an X-linked gene in Leber optic atrophy by linkage analysis, 478

Primary trabeculectomy in congenital glaucoma, 100

Ten years experience of a genetic eye clinic: 1978–1987, 480

Glaucoma
Fibronectin detection in drainage outflow system of human eyes in ageing and progression of open-angle glaucoma, 217

Ophthalmic epinephrine, phenylephrine, and pilocarpine affect the systemic absorption of ocularly applied timolol, 622

Primary trabeculectomy in congenital glaucoma, 100

Glioma
Optic gliomas in children with neurofibromatosis type 1, 479

***Gonococcus* sp.**
Efficacy of neonatal ocular prophylaxis for the prevention of chlamydial and gonococcal conjunctivitis, 101

Graft
Conchal cartilage and composite grafts for correction of lower lid retraction, 219

Graves' disease
Studies on the occurrence of ophthalmopathy in Graves' disease, 476

Graves' ophthalmopathy
Immunohistochemical analysis of the retrobulbar tissues in Graves' ophthalmopathy, 216

Upper eyelid retraction in Graves' ophthalmopathy. A new surgical technique and a study of the abnormal levator muscle, 104

Growth factor
Correlation of fibrosis and transforming growth factor-β type 2 levels in the eye, 217

H

Hemianopsia
Hemispatial visual inattention masquerading as hemianopia, 622

Occipital infarction with hemianopsia from carotid occlusive disease, 219

Herpes simplex virus
Epidemiology and natural history of ocular herpes simplex virus infection in Rochester, Minnesota 1950–1982, 103

Hypertension
Classification of hypertensive fundus changes and their order of appearance, 481

I

Infants
Efficacy of neonatal ocular prophylaxis for the prevention of chlamydial and gonococcal conjunctivitis, 101

Orbital roof fractures in the pediatric population, 755

Intraocular lens
Advantages and limitations of current soft intraocular lenses, 216

Drug uptake and release by a hydrogel intraocular lens and the human crystalline lens, 101

Intraocular pressure
Non-contact tonometry in the postoperative eye, 343

Prevention of the immediate intraocular pressure rise following argon laser trabeculoplasty, 753

Iris
Iris pigmentation and pigmented lesions. An ultrastructural study, 103

A study of iris melanoma in Northern Ireland, 753

Irradiation
Analysis of treatment results in 36 children with retinoblastoma treated by scleral plaque irradiation, 754

Ischemia
The ocular ischemic syndrome, 620

J

Joubert's syndrome
Joubert's syndrome associated with congenital ocular fibrosis and histidinemia, 477

K

Kearns-Sayre syndrome
Mitochondrial DNA deletions in progressive external ophthalmoplegia and Kearns-Sayre syndrome, 344

Keratoconjunctivitis sicca
Sodium hyaluronate in the treatment of keratoconjunctivitis sicca, 476

L

Laser
Prevention of the immediate intraocular pressure rise following argon laser trabeculoplasty, 753

Lateral rectus muscle
Surgical management of oculomotor nerve palsy with lateral rectus transplant to the medial side of the globe, 477

Leber's optic neuropathy
Magnetic resonance imaging in Leber's optic neuropathy, 621

Lens
Drug uptake and release by a hydrogel intraocular lens and the human crystalline lens, 101

Light exposure
Bilateral loss of vision in bright light, 346

Lithium
Lithium-induced internuclear ophthalmoplegia, 754

M

Magnetic resonance imaging
Blindness in eclampsia: CT and MR imaging, 755

Magnetic resonance imaging in Leber's optic neuropathy, 621

Medical education
Academic medicine as a public trust, 479

Melanoma
DNA cell cycle studies in uveal melanoma, 103

A study of iris melanoma in Northern Ireland, 753

Mitochondria
A defect in mitochondrial electron-transport activity (NADH-coenzyme Q oxidoreductase) in Leber's hereditary optic neuropathy, 345

Mitochondrial DNA deletions in progressive external ophthalmoplegia and Kearns-Sayre syndrome, 344

A mitochondrial DNA mutation as a cause of Leber's hereditary optic neuropathy, 345

Muscle
Joubert's syndrome associated with congenital ocular fibrosis and histidinemia, 477

Upper eyelid retraction in Graves' ophthalmopathy. A new surgical technique and a study of the abnormal levator muscle, 104

Myopathy
Muscle-eye-brain disease (MEB), 753

N

Neurofibromatosis
Optic gliomas in children with neurofibromatosis type 1, 479

Neuropathy
Optic atrophy, hearing loss, and peripheral neuropathy, 753

Nevus of Ota
Iris pigmentation and pigmented lesions. An ultrastructural study, 103

Nystagmus
Downbeating nystagmus and other ocular motor defects caused by lithium toxicity, 218

Lithium-induced internuclear ophthalmoplegia, 754

O

Ocular injuries
Eye injuries to football players, 101

Oculomotor nerve palsy
Surgical management of oculomotor nerve palsy with lateral rectus transplant to the medial side of the globe, 477

Open-angle glaucoma
Fibronectin detection in drainage outflow system of human eyes in ageing and progression of open-angle glaucoma, 217

Ophthalmopathy
Studies on the occurrence of ophthalmopathy in Graves' disease, 476

Ophthalmoplegia
Lithium-induced internuclear ophthalmoplegia, 754

Mitochondrial DNA deletions in progressive external ophthalmoplegia and Kearns-Sayre syndrome, 344

Optic atrophy
Optic atrophy, hearing loss, and peripheral neuropathy, 753

Preliminary exclusion of an X-linked gene in Leber optic atrophy by linkage analysis, 478

Optic neuropathy
A defect in mitochondrial electron-transport activity (NADH-coenzyme Q oxidoreductase) in Leber's hereditary optic neuropathy, 345

A mitochondrial DNA mutation as a cause of Leber's hereditary optic neuropathy, 345

Orbit
Orbital roof fractures in the pediatric population, 755

Superior and transantral orbital decompression procedures, 216

P

Papillomavirus
DNA of human papillomavirus type 16 in dysplastic and malignant lesions of the conjunctiva and cornea, 345

Phenylephrine
Ophthalmic epinephrine, phenylephrine, and pilocarpine affect the systemic absorption of ocularly applied timolol, 622

Pilocarpine
Influence of ophthalmic ointments on the penetration of pilocarpine drops, 621

Ophthalmic epinephrine, phenylephrine, and pilocarpine affect the systemic absorption of ocularly applied timolol, 622

Plasminogen
Tissue plasminogen activator in the treatment of experimental retinal vein occlusion, 102

Positron emission tomography
The colour centre in the cerebral cortex of man, 755

R

Retina
Classification of hypertensive fundus changes and their order of appearance, 481

Effect of sustained pharmacologic vitamin E levels on incidence and severity of retinopathy of prematurity: A controlled clinical trial, 480

Focal congenital anomalies of the retinal pigment epithelium, 478

GM-CSF with ganciclovir for the treatment of CMV retinitis in AIDS, 345

Tissue plasminogen activator in the treatment of experimental retinal vein occlusion, 102

Retinal pigment epithelium
Focal congenital anomalies of the retinal pigment epithelium, 478

Scanning electron microscopic observation of Bruch's membrane with the osmium tetroxide treatment, 100

Retinoblastoma
Analysis of treatment results in 36 children with retinoblastoma treated by scleral plaque irradiation, 754

Parental origin of mutations of the retinoblastoma gene, 344

Preferential germline mutation of the paternal allele in retinoblastoma, 480

Retinopathy of prematurity
Effect of sustained pharmacologic vitamin E levels on incidence and severity of retinopathy of prematurity: A controlled clinical trial, 480

S

Saccades
Catecholamine depletion produces irrepressible saccadic eye movements in normal humans, 476

Scleral plaque
Analysis of treatment results in 36 children with retinoblastoma treated by scleral plaque irradiation, 754

Sodium hyaluronate
Sodium hyaluronate in the treatment of keratoconjunctivitis sicca, 476

Suture
Astigmatism shift after extracapsular surgery. Mersilene versus nylon, 621

T

Timolol
Ophthalmic epinephrine, phenylephrine, and pilocarpine affect the systemic absorption of ocularly applied timolol, 622

Tonometry
Non-contact tonometry in the postoperative eye, 343

Trabecular meshwork
The effect of epinephrine and benzalkonium chloride on cultured corneal endothelial and trabecular meshwork cells, 478

Trabeculectomy
Primary trabeculectomy in congenital glaucoma, 100

Ptosis following cataract and trabeculectomy surgery, 343

Trabeculoplasty
Prevention of the immediate intraocular pressure rise following argon laser trabeculoplasty, 753

Trabeculotomy
Primary trabeculectomy in congenital glaucoma, 100

Trachoma
Water, trachoma and conjunctivitis, 477

U

Uvea
DNA cell cycle studies in uveal melanoma, 103

Fine needle aspiration biopsy of suspected metastatic cancers to the posterior uvea, 102

V

Vision
Bilateral loss of vision in bright light, 346

Vision screening
Review of children referred from the school vision screening programme in Kettering during 1976-8, 100

Visual field
Hemispatial visual inattention masquerading as hemianopia, 622

Vitamin
Effect of sustained pharmacologic vitamin E levels on incidence and severity of retinopathy of prematurity: A controlled clinical trial, 480

Vitreous
Fine needle aspiration biopsy of suspected metastatic cancers to the posterior uvea, 102

W

Wilson's disease
Gaze distractibility in Wilson's disease, 343
